PRESENTED WITH MEMORIAL

Rev. Dr. Russell Honored by Sodality of Cathedral at Baltimore.

At the Cathedral School Hall in Baltimore, Rev. Dr. William T. Russell, of this city, was presented last evening with a handsome memorial by the Sodality of the Blessed Virgin Mary, of the Cathedral, of that city, of which organization Dr. Russell was, for several years, director.

Sentiments of regard for the former director and of appreciation of his labors in reorganizing the Sodality are expressed in the handsome memorial, which is illuminated after the medieval style. Rev. Father Louis O'Donovan, Dr. Russell's successor as director of the Sodality, made the presentation. Dr. Russell responded with a graceful acknowledgment.

The work was executed by Miss Mary Turner, of Baltimore, who devotes her attention exclusively to the art of illumination.

BISHOP CARROLL TO BE RECTOR

Believed He Will Succeed Bishop O'Connell at University.

Thought that Dubuque Prelate May Be Eventually Chosen Coadjutor of Baltimore.

The name of Right Rev. John P. Carroll, Bishop of Helena, Mont., has been constantly mentioned of late as successor to Right Rev. Bishop D. J. O'Connell, and announcement has been frequently made to the effect that Bishop Carroll has been appointed rector of the Catholic University of America, notwithstanding the fact that no papal brief has been received at the Catholic University confirming such appointment, nor any communication forwarded from Rome to His Eminence Cardinal Gibbons, so far as was known at a late hour last night, that would substantiate the announcement.

There is, however, every reason to believe that Bishop Carroll will be the next rector of the Catholic University in the event that he is willing to accept the office, and his eminent fitness for the exalted post, together with the fact that he is known to be the cardinal's choice, has given to the rumor the assurance of fact.

Bishop Carroll's administrative ability alone pre-eminently fits him for the post. Another rumor is to the effect that Bishop Carroll will be coadjutor bishop of Baltimore; that if he accepts the rectorship of the Catholic University he will only remain there for one term, familiarizing himself with the work of the archdiocese. While there he would be one of the suffragan bishops of the cardinal, with whom, as president of the board of directors of that institution, he would be thrown in close contact.

The work of this archdiocese is conceded to be more important than that of any other in the country. Should the Pope select Bishop Carroll to be coadjutor bishop of Baltimore, it will mean that he may eventually be archbishop of Baltimore, with the right of succession to the cardinal.

Bishop Carroll is a native of Dubuque, Iowa, and is forty-five years old. He was educated at St. Joseph's College, Dubuque, and was ordained after graduation from the Grand Seminary in Montreal. At his alma mater he was appointed professor and later president, and in 1894 he was consecrated Bishop of Helena.

LESS COAL MINED.

Decrease in Production Attributed to Financial Panic.

According to a report of the geological survey a most effective method of conserving the coal resources of the country is to develop a financial panic, for one result of the depression that followed the disturbance of October, 1907, was a decreased production of coal of 15 to 20 per cent, as compared with the production of the preceding year.

In 1907 the production reached the unprecedented total of 480,262,424 short tons, of which 324,759,112 short tons were bituminous coal and lignite and 55,904,312 short tons were Pennsylvania anthracite. Letters received from States officials and others closely in touch with coal mining industry in several States, indicates that the bituminous coal production in 1908 was between 320,000,000 and 330,000,000 tons, or practically 70,000,000 tons less than in 1907.

CORTELYOU IS SILENT.

Declines to Discuss Report that He Will Head Gas Company.

Secretary Cortelyou yesterday declined to discuss the rumor that he is to become head of the Consolidated Gas Company. In declining to talk about it, Mr. Cortelyou followed his practice when reports are published that he is to connect himself with this or that corporation in New York or elsewhere.

One thing may be taken for a certainty, that Secretary Cortelyou will remain in the Cabinet until the end of President Roosevelt's term. It is believed to be unlikely that he will make any announcement of his plans for the future until the end of the present administration.

The fish were shipped from Florida. As the weather grows warmer shipments will be received from the Carolinas and Chesapeake Bay.
